

HDMI cable

AK-HM500/300/100

DENON

HDMI

■ Officially HDMI certified

■ 1080p compliant

■ Cable Holder, for secure connection to the devices: The Cable Holder is mounted on the cable connector and adheres around the terminal on the device to provide a secure connection between the cable and devices.

■ A single HDMI cable is capable of transmitting both high-definition (HD) video signals and multi-channel (surround) audio signals.

■ Denon's HDMI cable can be used to connect any two devices, such as a DVD player, A/V receiver, set-top box or TV, that are equipped with an HDMI terminal.

■ External mesh, to minimize vibration within the cable or from external sources and achieve high-grade video and sound playback.

■ Triple-layer shielding, to eliminate mutual interference inside the cable and shut out external noise, ensuring clean transmission of video and audio signals.

■ Twisted construction for core wires, to prevent interference from electromagnetic noise and achieve distortion-free transmission of video and audio signals.

■ Durable 24k gold-plated contacts, to minimize signal degradation caused by contact resistance or corrosion over time and maintain superior transmission characteristics.

■ Cable Length

AK-HM500 : 197 inches, 5 meters

AK-HM300 : 118 inches, 3 meters

AK-HM100 : 39 inches, 1 meters
